Late News of the War.

Letters from eight of the principal officers at Santiago addressed to General Shafter insist on the transportation immediately of all the U. S. army at Santiago to some northern point in the United States. The sick list exceeds 4,000, and it is claimed malaria has rendered all the army but ten per cent unfit for duty. The troops will probably be taken to Long Island.

There is much delay in shipping Spanish prisoners to Spain.

It is predicted that the preliminary peace negotiations will be concluded in a week.

Friction between officers in Sixth Massachusetts in Porto Rico has caused a sensational resignation of a number of officers.

Gen. Garcia victoriously routed Spaniards at Mayari and took many prisoners.

See page two for the latest war dispatches detailing the situation at Porto Rico and in Cuba. Washington dispatches on same page present the latest phases of the peace negotiations.

On page seven THE NEWS devotes three columns to an interesting description of the conditions at Manila. On the same page is printed a one-column sketch of that beautiful island Porto Rico, which will shortly be a part of Uncle Sam's territory.

Camp Thomas.
Chickamauga, Ga.,
August 3d, 1898.

The visit of the army paymasters to Camp Thomas this week is one that will bring joy to the soldiers. The total amount to be paid out at Camp Thomas will be \$1,500,000.

Lieutenant Leonard Cook, who has been at home on a five days' furlough, has returned to Camp. Private John Sweeney, of the Hospital Corps, has been sick for several days, and has gone to Paris to recuperate.

The Second Kentucky has this week received 11,000 rounds of 45-caliber loaded shells for target practice. Sixteen thousand rounds of blanks were also received and will soon be distributed for a sham battle which will occur next week.

Maj. Owens has been ill for several days in Chattanooga, but he expects to be entirely recovered in a few days. The general health of the Second Kentucky is good. It has only had one serious case of fever, Richard Lewis, who was sent to a hospital at Lexington last week.

The Second Kentucky is daily expecting the equipment for the recruits recently arrived. Up to this time the recruits have been compelled to drill and work with just what clothing they brought with them, and this was not very much. Some of the recruits have been without shoes and their position has been anything but enviable.

Lieutenant Desha Breckinridge is the best mounted officer at Camp Thomas. He received this week as a present from Col. Milton Young, of Lexington, the noted thoroughbred horse Strathmeath, winner of the American Derby, at Chicago. Gen. Breckinridge also received a fine horse from Lexington today. The animals are fine specimens of Kentucky horse-flesh.

Major General J. C. Breckinridge, who returned last week to Washington from Santiago, arrived at Chickamauga this morning and assumed command of Camp Thomas, relieving Brig. Gen. Frank, who was in temporary command. Gen. Breckinridge's only order to-day was to name his personal staff, which is as follows: Capt. J. T. Diskman, of the eight United States cavalry; First Lieutenant S. M. Foote, of the fourth artillery; Second Lieut. Desha Breckinridge, of the third United States volunteer engineers. Gen. Breckinridge is a brother of Col. W. C. P. Breckinridge, of Lexington.

Dr. Miles' Heart Cure

Cures a Prominent Attorney.

M. R. C. PHELPS, the leading pension attorney of Belfast, N. Y., writes: "I was discharged from the army on account of ill health, and suffered from heart trouble ever since. I frequently had fainting and smothering spells. My form was bent as a man of 50. I constantly wore an overcoat, even in summer, for fear of taking cold. I could not attend to my business. My rest was broken by severe pains about the heart and left shoulder. Three years ago I commenced using Dr. Miles' Heart Cure, notwithstanding I had used so much patent medicine and taken drugs from doctors for years without being helped. Dr. Miles' Heart Cure restored me to health. It is truly a wonderful medicine and it affords me much pleasure to recommend this remedy to everyone."

Dr. Miles' Remedies are sold by all druggists under a positive guarantee, first bottle benefits or money refunded. Book on diseases of the heart and nerves free. Address, DR. MILES MEDICAL CO., Elkhart, Ind.

STUMP PENCILS MASCOTS.

Members of Gotham's Stock Exchange Superstitious About Lead Sticks.

"Talking about hoodoos and mascots," said a member of the Stock Exchange, "the boys on the floor of the exchange are as superstitious as a lot of sailors. If you don't believe it, you look at the lead pencils they are using the next time you are in the building."

"You won't find a man using a long lead pencil. Why? Because a long pencil is a 'hoodoo' of the worst kind. They always cut a new pencil in half before they sharpen it. Some of these pencils acquire the reputation of being lucky."

"Less than a week ago I came down without my pencil, which, by the way, is a lucky one—every memorandum made with that pencil results in a profit for me—and I borrowed one from a friend on the floor. He handed me a stump about an inch long and said, 'You can use that; it's a lucky pencil.' 'Sure enough, I made two deals in the morning, and each netted me a handsome profit."

"I was about to make a memorandum of some stock I had bought when my friend approached and said:

"Here, take this pencil and let me have mine again. I've lost on every deal since I loaned it to you."

"Sure enough, I lost on that deal, and the luck went back to the owner of the pencil."

"When you get hold of a lucky pencil, you want to hang on to it."

"Some of the boys have little lucky pencils not more than an inch long, and they guard them as they would their lives."

"If you, through carelessness or accident, cause them to break the lead point they lose whatever regard they have for you and forever afterward regard you as inimical. Some of them wouldn't take \$5 for a little piece of pencil worth considerably less than a cent."—New York Press.

STING OF THE BEE.

Poisonous Properties That Lurk in the Honey Maker.

The chemical and toxic properties of the poison of the honeybee have been a subject for long study by a German scientist, Dr. Joseph Zanger. During his investigation Dr. Zanger employed 25,000 bees. He found that the fresh poison is clear, like water, of an acid reaction, bitter taste and of a fine aromatic odor.

On evaporating and drying at a temperature of 100 degrees centigrade (212 degrees F.) a gummy residue is left. It is soluble in water; with alcohol it forms an emulsionlike mixture. The aromatic odor is due to a volatile substance, which disappears on evaporation and is not poisonous. The poisonous constituent is not destroyed by short boiling nor by drying and heating the residue to 212 degrees F. nor by the diluted acids or alkalis.

Dr. Zanger has proved the existence of formic acid, but he has also proved that that is not the poisonous principle. The latter is an organic base, soluble, with difficulty, in water, but kept in solution by an acid. On the healthy skin neither the bee poison nor a 2 per cent solution of the poisonous principle has any effect, but they act as powerful irritants on the mucous membranes.

His tests made on rabbits and other animals show that when the poison is brought in contact with the eye there follow lachrymation, hyperemia, chemosis and croupous membrane or conjunctivitis. The general condition is also affected; the animals become melancholy, take no food, but are very thirsty, and the urine shows small amounts of albumen.—Philadelphia Record.

A Louisville Slander.

Not long ago there was put in at the Louisville telephone exchange a switch board run entirely by a battery, so that the amount of calls was definitely indicated by expenditure of force. The chart showed correct business conditions up to 10 a. m., and then there came a most unaccountable drop. The electrician was bothered. There must be a leakage, a weakness, somewhere. Again and again the same remarkable and instantaneous drop showed on the chart, and the perplexed telephone engineer went from Chicago to Louisville to investigate.

He was with a group of anxious managers and directors waiting for the significant hour to approach, when suddenly some one looked at his watch and called, "Gentlemen, we are losing time," whereupon one and all arose and passed to the nearest buffet. That was crowded, and they tried another, only to find it also thronged. Then the electrician looked at the hour. It was just past 10 o'clock, and a daily scene was being enacted. All Louisville was out taking a drink.—Chicago Times-Herald.

Circumstances Alter Cases.

Circumstances are still much in the habit of altering cases. It is said that a Yorkshire socialist was explaining to a friend the principles of his belief, and that he made the statement at the outset that all possessions should be shared equally.

"If you had two horses," said the friend, "would you give me one?"

"Of course," said the socialist.

"And if you had two cows, would you do the same?"

"Of course I should."

"Well, suppose now," said the friend slowly, "that you had two pigs, would you give me one of them?"

"Eh, tha's gettin' over near home," said the other slyly. "Tha knows I've got two pigs."—Youth's Companion.

Oh, the Pain of Wheat Wanted Rheumatism!

Rheumatism often causes the most intense suffering. Many have for years vainly sought relief from this disabling disease, and are to-day worse off than ever. Rheumatism is a blood disease, and Swift's Specific is the only cure, because it is the only remedy which can reach such deep-seated diseases.

A few years ago I was taken with inflammatory Rheumatism, which became so intense that I was for weeks unable to walk. I tried several prominent physicians and took their treatment faithfully, but was unable to get the slightest relief. In fact, my condition seemed to grow worse, the disease spread over my entire body, and from November to March I suffered agony. I tried many patent medicines, but none relieved me. Upon the advice of a friend I decided to try S. S. S. Before allowing me to take it, however, my guardian, who was a chemist, analyzed the remedy, and pronounced it free of potash or mercury. I felt so much better after taking two bottles, that I continued the remedy, and in two months I was cured completely. The cure was permanent, for I have never since had a touch of Rheumatism though many times exposed to damp and cold weather.

Don't suffer longer with Rheumatism. Throw aside your oils and liniments, as they can not reach your trouble. Don't experiment with doctors—their potash and mercury will add to your disability and completely destroy your digestion.

S. S. S. For Blood

will cure perfectly and permanently. It is guaranteed purely vegetable, and contains no potash, mercury, or other mineral. Books mailed free by Swift Specific Co., Atlanta, Ga.
